Hostetter's Celebrated Stomach Bitters

READ E. D. E. N. SOUTHWORTH'S LETTER.

PROSPECT COLLEGE, GEORGETOWN, D. C., }
April 2, 1863. }

MESSRS HOSTETTER & SMITH—*Gentlemen*: It gives me pleasure to add my testimonial to those of others in favor of your excellent preparation. Several years of residence on the banks of a Southern river, and of close application to literary work, had so thoroughly exhausted my nervous system, and undermined my health, that I had become a martyr to dyspepsia and nervous headache, recurring at short intervals, and defying all known remedies in the Materia Medica. I had come to the conclusion that nothing but a total change of residence and pursuits would restore my health, when a friend recommended Hostetter's Bitters. I procured a bottle as an experiment; it required but one bottle to convince me that I had found at last the right combination of remedies. The relief it afforded me has been complete. It is now some years since I first tried Hostetter's Bitters, and it is but just to say that I have found the preparation all that it claims to be. It is a Standard Family Cordial with us, and even as a stimulant we like it better than anything else; but we use it in all nervous, bilious, and dyspeptic cases, from fever down to toothache. If what I have now said will lead any dyspeptic or nervous invalid to a sure remedy, I shall have done some good.

I remain, gentlemen, respectfully yours,

E. D. E. N. SOUTHWORTH.

The Case Stated—Laughing Gas.

Every profession has its fossils, and scientific fossils are the most invulnerable of incrustations. The owlish vaticinations and ridiculous dogmatisms of such bodies as social science congresses, statistical corps, boards of trade, medical and mechanical institutes, with their threadbare scientific commonplaces, vapid generalizations; monotonies of treatment, and queer mosaic of cloudy allusions, have become matters of derision with all earnest, progressive truth-seekers. Such bodies fail to be useful because they are never willing to move along with the newest learning—the latest scientific revelations. A conclave of bishops could not accept Columbus' theory of a new world because it was contrary to the accepted interpretation of the Scriptures. Nor were their opinions changed even after the discovery.

We present a local application of these truths. Dr. C. Sill, of No. 246 Penn street, for many years a skilful and successful dentist of Pittsburgh, was the first of his profession to apply laughing gas here. A large practice demonstrated its safety and usefulness. It was a duty to humanity to publicly proclaim the virtues of this discovery. Should a light be kept under a bushel? But the Pittsburgh Dental Association, of which Dr. Sill had been President, censured him for alleged unprofessional conduct in advertising the gas, the *real* motive, however, being jealousy of his very large practice, and a "retiring" member of the Association, one J. S. King, avers by card that he has heard of fatal accidents at the east from the use of the gas, and insinuates that a young lady was made ill by its application at an office on Penn street, although he took very good care not to name Dr. Sill's office, as he knew that not a single accident of any kind had ever occurred in Dr. S.'s practice. King affects to abhor the gas bag and inhaling tube as not clean enough for his immaculate mouth. Hundreds of clean, respectable and intelligent people don't object; they are satisfied with Dr. S.'s precautions in the matter. The more widely the virtues of the gas are known the more general does its use become. Dr. Sill's practice increases daily, while the members of the Dental Association are welcome to a monopoly of a non-advertising, non-paying *respectable* practice.

Extraordinary

One of the most extraordinary cures, perhaps, ever performed by any medicine, is that of a little girl in this city, who, after nine years of suffering in the most terrible wretchedness, has been restored to health by "Dr. Keyser's Blood Searcher." Most of our citizens, who may be interested in such cases have already been made acquainted with the case of Daniel A. Boyd, who is a living, active and intelligent witness to the power and efficacy of this medicine. The little girl was, however, a cure still more remarkable. Over thirty running sores covered her body; the bones were seen under the play of the muscles and dead pieces of bone were discharged with the humor, which was driven to the surface, and by Dr. Keyser's Blood Searcher was completely eradicated from the system. In purchasing, look for the name of Geo. H. Keyser over the top of the bottle, without which reject it. Prepared and sold at Dr. Keyser's Medicine store, and also sold at George A. Kelly's, Allegheny.

The Surgeons' Reports

Show that our armies have suffered greatly from chills and fever which is induced by the miasma and change of climate to which they are exposed. They also find Ayer's Ague Cure is an effectual remedy for this distemper, and are urging the government to adopt it within the regulations. The Surgeon-General hesitates because it is put up in a proprietary form. However great that convenience to the public, he prefers the physicians of the army should give their own directions for the doses. Whatever professional pride may dictate, he knows as well as we do, that Dr. Ayer's "Cure" is an almost perfect antidote for the Ague, and that the soldiers should have the benefit of it, as well as the people.—*Washington (D. C.) Correspondent.*

Flying Squadron Fitting Out—Health of Senators Dixon and Foote—Honorable Discharges—Sales of Irish Bonds—Quarantines at Southern Ports—The Tariff Bill—Senator Stockton.

NEW YORK, March 23.—The *Herald's* Washington special says: It is understood that orders have been issued for the immediate fitting out of a flying squadron for duty on the British North American coast. Various reasons are assigned for this movement. One is the assembling of the British West India fleet at Halifax, and another is the Fenian scare. And still another is the termination of the reciprocity treaty and the effect on our fisheries. There is one thing certain, we shall have a fine fleet in the eastern waters, capable of taking care of our interests in that quarter. It will probably equal the English fleet in strength.

A Washington special states that Senators Dixon and Foote are still in a precarious condition, though both are reported somewhat better by their medical attendants.

A special order honorably discharging thirteen Assistant Quartermasters, five Commissaries of Subsistence, one Surgeon, five Assistant Adjutant Generals, and two Aides-de-camp, all of the volunteer military forces, were yesterday issued by the War Department. Among the officers included in this order is Col. D. T. Van Buren, formerly Assistant Adjutant General to Generals Dix and Butler.

The Superintendent of the Fenian Bond Agency, in Washington, states that during the month past sales of bonds of the Irish Republic have been made amounting to ten thousand dollars. The bonds sold were mostly of the twenty dollar denomination.

According to instructions from the headquarters of the army, officers in command of Military Departments are establishing quarantines at the different Southern ports. Suitable vessels for quarantine guard ships are stationed along the coast and health officers have been appointed to inspect all vessels, especially those from the West Indies.

Ex-Governor Andrew, of Massachusetts, has addressed a strong letter of approval to Senator Stewart [illegible] his amnesty suffrage resolutions, lately introduced [illegible] in the Senate. The Committee of Ways and [illegible] Means are maturing the Tariff Bill, which will be re[illegible] to the House as soon as the Finance Bill can be disposed of.

Parties have been sent for to Kansas for the purpose of identifying a man recently arrested in New York, and supposed to be Quantrell, the celebrated guerrilla.

Senator Stockton, of New Jersey, whose seat has been contested, will be ousted by a vote of the Senate. His successor is said to be a radical.

The Civil Rights Bill.

NEW YORK, March 23.—The *Post's* special says: The President is still considering the Civil Rights bill. It is understood that he has asked counsel of distinguished jurists in regard to its constitutionality. If returned to the Senate with a veto, the objection will relate to the second section of the bill, on the ground that it declares penalties against State Judges. The President has asserted that he approves of the general principles of the bill.

The Loan Bill.

NEW YORK, March 23.—The *Commercial's* special says: The Committee on Ways and Means have determined to report a loan bill with amendments, restricting the reduction of circulation to $10,000,000 during the first six months, and $4,000,000 a month afterward.

VOTE ON THE LOAN BILL.

WASHINGTON, March 23.—The physicians report the condition of Senator Foote to be much improved, with fair prospects of an early recovery of health. Senator Dixon, although not considered entirely out of danger, seems to be convalescent.

The United States Consul at Sheffield, England, writes to the Department of State under date of March [illegible], 1866, that the steady increase of the cattle plague is creating a serious alarm. It has now extended to the sheep, which is a proof of its contagious character.

The United States Consul at Liverpool informs the State Department, by a letter dated March 9, 1866, that emigrant ships leaving that port for the United States are filled with emigrants. Ship owners and others say that the emigration to the United States will be enormous, and the indications are that it will be greater this year than at any other time since we have been a nation.

Another member of the Chippewa Indian delegation died here yesterday, of the black measles, of which disease the chief and another of the tribe died during the week. Two others are sick with the same complaint, but are pronounced out of danger.

Much astonishment has been created here, by the reception of a telegram from Chicago, stating that dispatches from Washington are published in the Western papers saying that Gen. Spinner's recent letter maintains the correctness of Freeman Clark's financial statements, controverting the position of the Secretary of the Treasury. So far from this being true, Gen. Spinner's effort was in the opposite direction, and, in answer to Mr. Clark, the Secretary of the Treasury has received the following letter:

WAR DEPARTMENT, }
WASHINGTON, March 23. }

SIR: I am directed by the Secretary of War to transmit herewith a letter postmarked March 22d, and to this Department, over the signature of "Union-loving Woman," and enclosing the sum of forty-four dollars, to be appropriated to the payment of the National Debt. I have the honor to be,

Your obedient servant,
THOMAS T. ECKERT,
Acting Assistant Secretary of War.

To Hon. Hugh McCulloch,
Secretary of the Treasury.

The report of the Committee on Reconstruction giving the testimony of Gen. Lee and others about the condition of Virginia, is still delayed by the absence of Senator Howe, who is especially connected with that branch of the investigation.

ADVICES FROM CALIFORNIA.

The War Between Spain and Chili.

BOLIVIA JOINED THE ALLIANCE.

NEW YORK, March 23.—The steamer Arizona from Aspinwall, on the 15th, with California mails and treasure of March 1st, has arrived. The Golden City left Panama on the 10th, for San Francisco.

The gold excitement at Barbadoes continues.

The crews of the Spanish fleet on the Chilian coast are suffering from confinement and want of fresh provisions. The Spanish frigates Villa de Madrid and Blanco had been repulsed in an attack on the Chilian forts at the mouth of a river in which was the allied fleet. The fortifications were strong, and had mounted the guns from the Peruvian frigate Arizonian, which had been wrecked on the bar.

The Spaniards attempted to shell the place and to reach at long range the squadron inside. The fire was handsomely returned by the fort. The Blanco was considerably damaged. The [illegible] returned to Valparaiso.

An able consular protest has been made [illegible] commander's declaration against the Spanish co[illegible] of coal being contraband of war.

It is rumored at Valparaiso that credits to a large amount, granted by the Oriental Bank of London, were dishonored by their correspondents of the Bank of Valparaiso. They were, however, immediately taken up by the National Bank of Chili for the honor of the Oriental Bank.

Bolivia has allied herself with Chili and Peru for offence and defence. Peru is rapidly preparing to take a full share in the war. Eight torpedoes will soon be ready for the defence of Callao. The Prados Government was inspiring confidence daily.

The Columbian Congress has rejected a proposition to declare war against Spain. The weather is dry on the Isthmus, and the country healthy.

Death of Joseph Walker, Esq.

THE LOAN BILL.

The Currency of the Country.

LETTEE FROM SECRETARY M'COLLOCH.

WASHINGTON, March 23.—The following is the Loan Bill as it passed the House to-day:

Be it enacted, &c., That the act entitled "An Act to provide ways and means to support the Government," approved March 3d, 1865, shall be entered and construed to authorize the Secretary of the Treasury, at his discretion, to receive any Treasury notes or other obligations issued under any act of Congress, whether bearing interest or not, in exchange for any description of bonds authorized by the act to which this is an amendment, and also to dispose of any description of bonds authorized by said act, either in the United States, or elsewhere, to such an amendment in such manner and at such rate as he may think advisable, for lawful money of the United States, or for any treasury notes, certificates of indebtedness or certificates of deposit, or other representatives of value which have been or which may be issued under any act of Congress. The proceeds thereof to be used only for retiring treasury notes or other obligations issued under any act of Congress; but nothing herein contained shall be construed to authorize any increase of the public debt, provided, that of the United States notes not more than $10,000,000 may be cancelled within six months from the passage of this act, and thereafter, not more than $4,000,000 in any one month; and provided the bonds which may be disposed of elsewhere than in the United States, may be made payable, both principal and interest, in the coin or currency of the country in which they are made payable, that shall not bear a rate of interest exceeding five per cent. per annum; and provided, further, that the act to which this is an amendment, shall continue in full force in all provisions, except as modified by this act.

Sec. 2d. That the Secretary of the Treasury shall report to Congress, at the commencement of the next session, the amount of exchanges made, or money borrowed under this act, of whom, and on what terms. Also, the amount and character of the indebtedness incurred under this act, and the act to which this is an amendment, with a detailed statement of the expense of making such loan and exchanges.

WASHINGTON, March 23.—The following letter was addressed to-day by the Secretary of the Treasury to the Chairman of the Committee of Ways and Means:

TREASURY DEPARTMENT, March 23.—*Dear Sir:* Your favor of the 22d instant is received, transmitting to me the following resolution, namely: *Resolved,* That a communication be addressed by this Committee to the Secretary of the Treasury stating that the Committee has received, through one of its members, information that the Secretary is of opinion that he is without further legislation sufficiently armed with power, to carry out the policy announced in his late annual report, and to request the Secretary to inform the Committee whether such is his opinion.

In reply, I have to say that I must have failed to make myself clearly understood by the Honorable member of the Committee to whom reference is made. I did not intend that the Secretary is, without further legislation, sufficiently armed with power to carry out the policy announced in his late annual report, but I did intend to say to him that if it should be found necessary to modify in any important particular the provisions of the bill reported by the Committee, I should prefer that it should not become a law. It will be, in my opinion, a national calamity, if Congress shall fail to give additional powers to the Secretary; for it will be very difficult, if not impossible, to fund the interest bearing notes under the existing laws. But I do not desire that the commonwealth or myself should become in any way responsible for a law that is likely to fail in accomplishing its object.

I regard it a matter of the greatest importance, that the powers of the Secretary should not be strictly defined. If, for example, the Secretary should be prohibited from selling bonds below par, it would be easy, as the market in the process of funding, must be liberally supplied, for the enemies of the Government to form successful combinations for keeping the bonds at such prices as would prevent the negotiation of them. On the other hand, if the authority of the Secretary in this respect is not limited, no such combinations would be likely to be formed. In my opinion, the best way of keeping the bonds at a premium will be to leave the Secretary unrestrained in the sale of them. Against an undefined power it would be difficult to form a successful combination. A limitation of the authority of the Secretary in this respect, would be very likely to prevent the funding. I do not, therefore, favor such a limitation, and should regret to have the Committee responsible for it.

In regard to the other important feature of the bill, the authority to withdraw United States notes, I have merely to remark that I conceive it to be of vast importance to the business of the country, the welfare of the people, and the credit of the nation that such a finance policy should be adopted by this Congress as will prepare the way for a return to specie payments. When this can be brought about will depend upon the condition of national industry and the trade relations between the United States and foreign nations. It is not desirable that specie payment should be restored until that restoration can be made by increased industry and a proper adjustment of the trade with Europe. The tendencies now are all in the right direction, and if they shall be adjusted by judicious legislation, I shall be hopeful that the currency of the country may be brought up to the specie standard without a large reduction of it. The apprehension which exists, that if power is given to the Secretary to retire United States notes, the circulation will be ruinously contracted, is without any substantial foundation. If no reliance can be placed upon the discretion and carefulness of the Secretary, the very condition of the finances of the country will prevent such a reduction of the currency, or will make either a light money market or depress business. Authority to reduce the currency will go very far to prevent the necessity for a reduction. The battle will be more than half fought when the Government shall adopt a healthy financial policy.

I am, very truly, your obedient servant,
(Signed) HUGH MCCULLOCH,
Secretary of the Treasury.

To Hon. Justin S. Morrill, Chairman Committee on Ways and Means.

THE CREDITORS OF SANDERS.

NAPOLEON'S PROBABLE DESIGNS ON AMERICA.

SEVERE EARTHQUAKE SHOCK.

&c., &c., &c.

NEW YORK, March 23.—Among the principal creditors who have arrested George N. Sanders in London, there appears the name of Arthur Rankin, of Windsor, Canada, for the sum of £3,000. Sanders was still in custody, and would be heard on the 23d inst.

The *Herald's* Paris correspondence says: There is much speculation in London and Paris concerning a private audience extended by the Emperor Napoleon to one Col. Fuller, editor of the London *Cosmopolitan*, a northern man who did not hesitate to declare his sympathies with the south, and who labored in that behalf to the best of his ability, and in every way an avowed and open supporter of the imperial institutions in France and Mexico.

A variety of opinions are expressed as to the subject of his interview with the Emperor. Those who look upon the matter in a serious light, imagine that the Emperor, in view of the possibility of a war with the United States resulting from his prolonged stay in Mexico, sent for the Colonel to ask his opinion as to what course the Southern States would adopt in such an event, and whether they would rise again with the aid of France, and strike another blow for independence and the reestablishment of slavery.

Others assert that the interview is for the free interchange of sentiment as to the best mode of treating French and Mexican Imperialism in the columns of the *Cosmopolitan*. At any rate he was honored next morning with an interview with Drouyn De l'Huys.

The report comes to us from Paris that arrangements are being made for the visit of the Seventh New York regiment at the Exposition Universal.

Advices from the Chincha Islands, February 28th, say the population is fast leaving in expectation of a visit from the Spaniards.

A severe shock of earthquake was felt on the seventeenth, lasting sixteen seconds.

Accounts from the New Barbacoas mines, Equador, say the previous reports were exaggerated. Californians are advised to stay at home.

Envoy from Stephens—The Pope and the Fenians.

NEW YORK, March 23.—A Fenian envoy from James Stephens to O'Mahony is said to have arrived on Wednesday. He contradicts the report of Stephens' escape.

The London *Times* correspondent from Rome says: The Pope's Holiness cannot depart from a principle he has once laid down and made. Two years since the American Bishops, of whom there are about thirty-five, wrote to Rome for instructions how to act toward the sect of Fenians then arising into existence.

The answer, as might have been expected, directed that it should be discountenanced. Since there are only four of the Roman Catholic Bishops in the United States, and they are Irishmen, who have openly protested against Fenianism, the Arch-Bishop of St. Louis, the Bishop of Philadelphia, the Bishop of Chicago, and another. The other Bishops, without expressing any sympathy with it, have permitted the epidemic to spread. As to the feeling and action of his Holiness, there can be no doubt.

From hour to hour, says the Dublin *Mail*, accounts come to the police authorities representing the whereabouts of Stephens in Dublin or near that neighborhood. In many instances a hoax is intended, but there can be [illegible] question that several came from well [illegible] meaning persons, who believe they have been correctly informed. The consequence of this is to give unnecessary labor to the officers whose duty it is to investigate the truth or falsehood of such reports.

This morning, a most circumstantial account, wanting but one element, truth, was in circulation through the city, to the effect that James Stephens had been conveyed by a party of Fenians on board of an American ship, at Drogheda. The U. S. vessel Canadagua, Capt. Steinbel, was in Belfast Harbor, where her crew had been feasted on board by the corporation.

The Arrest of Calvin Pepper.

FORTRESS MONROE, March 22.—Mr. Calvin Pepper, who was arrested here yesterday, left this morning for Richmond. An investigation is to be immediately made into his colonization scheme, by Maj. Gen. Terry, at Richmond.

THE FIRE AT CINCINNATI.

Total Loss Two Million Dollars.

FURTHER INTERESTING PARTICULARS.

CINCINNATI, March 23.—Pike's Opera House is entirely in ruins. Portions of the front wall has fallen into Fourth street, and the entire rear and side walls have fallen out. The *Enquirer* office, with all its contents, is completely destroyed. The fire spread across Baker street to the Adams Express stables and to several buildings on Third street, but it is now well subdued. Total loss will be two million dollars. Mr. Pike's loss is estimated at one million. He has an insurance of thirty-eight thousand only. Very little property was saved from the building, except the money and papers in the office. The actors lost all their wardrobes.

The Adams Express Company saved their money and valuable packages, but everything else was lost.

Among the sufferers are R. W. Carroll & Co., book-sellers; Wheeler & Wilson, sewing machines; A. C. Peters & Co., music store; Strowbridge & Gerloch, lithographers; Bryant, Stratton & DeHons, Commercial College; Harple's Mercantile Printing office; F. P. Haldy, boots and shoes; Shalmes & Son, paper hangers; H. D. Baldwin, pianos; Nibbett & Atkins' saloon; J. W. Langley, cigar dealer; Buckeye billiard saloon.

The fire broke out about half an hour after the audience had been dismissed. Its origin has not been fully ascertained, although the supposition is that it was occasioned by an explosion of gas. The fire spread so rapidly that in five minutes after the explosion occurred, the whole building was in flames. The event has somewhat dampened the spirits of the community.

CINCINNATI, March 23.—The Adams' Express Company have opened a temporary office at number 112 West Fourth street, and are prepared for business. Three car loads of goods, valued at one hundred and fifty thousand dollars, were destroyed by the fire. Their insurance on the office fixtures is $35,000. All their horses and wagons were saved.

The *Inquirer* Company lost about $100,000; insurance $38,000. They had on hand printed matter valued at $50,000, including $18,000 belonging to John Robinson's Circus. The Buckeye Billiard Saloon lost $10,000. They were partially insured. Kibbett & Atkinson lost $14,000; insured for $10,000. R. W. Carroll & Co., lost $120,000; insured $70,000. A. T. Peters & Co., lost their entire stock of music and musical instruments; damage very heavy; insured $30,000. Among the articles lost was plates for printing sheet music, which Mr. Peters had been gathering for the last forty years.

F. P. Haldy lost $15,000—insured for $9,000; Holmes & Co. lost $40,000—insured for $25,000; D. H. Baldwin lost twenty-two pianos—partially insured; Bryant, Stratton & De Han lost $8,000—no insurance; Harpel lost $5,000—no insurance; Strowbridge & Gerlock lost $10,000—no insurance. There were a large number of minor losses, including the office of the *Daily National Union.*

Business on Fourth street, between Walnut and Vine was entirely suspended to-day, and the street blockaded by the fallen walls of the Opera House. The streets surrounding the burnt space have been thronged with eager spectators throughout the day, and an intense feeling of awe prevails throughout the city over this terrible disaster. The *Enquirer* Company will resume its daily issue to-morrow, Sprague's Buildings, corner of Fourth and Vine streets, and Carlisle Buildings, corner of Fourth and Walnut streets were not injured.

Before the vote was declared, Mr. Stockton stated that Mr. Morrill had agreed to pair off with his colleague Mr. Wright, but had nevertheless voted. Mr. Stockton then desired Mr. Clark to call his (Stockton's) name, which was allowed by the Chair, as Stockton's name was on the roll. The vote was then declared by the Vice President to be, Yeas 22, nays 21.

The House then proceeded, during the morning hour, to call on the committees for the reports of private character.

Among other bills reported and passed was a joint resolution, reported by Mr. Bingham, from the Committee on Military Affairs providing for the relief of certain officers of the army. The joint resolution provides that in every case in which a commissioned officer actually entered on his duty as such commissioned officer, and was entitled by law to be mustered in as such, but by reason of capture by the enemy, or other cause beyond the control and without fault or neglect of his own, was not mustered according to the regulations within a period of not less than thirty days, the pay department shall allow to such officer full pay and emoluments from the date on which such officer actually entered on such duty, deducting only the amount paid or pay actually received by such officer for such period.

Mr. Shellaberger suggested that it should apply also to officers who were killed before they were regularly mustered in. The joint resolution was modified accordingly, and passed.

A motion to reconsider the vote by which the constitutional amendment was referred to the Judiciary, on the 13th of March, was called up and the House refused to reconsider the vote.

The House then went into Committee on the Pennsylvania reimbursement bill.

Mr. Blane withdrew his amendment, and the bill and the amendment were reported to the House.

The Pennsylvania reimbursement bill was passed by a vote of 86 to 35.

The Ways and Means Committee have reported back the loan bill with amendments, one of which provides that the Secretary of the Treasury shall not retire and cancel more that $10,000,000 of United States notes within six months after the passage of this act, and thereafter not more than $4,000,000 in any one month.

The House then went into a Committee of the Whole on the subject.

A joint resolution relative to the public laws of the United States, was passed.

The House then went into a Committee of the Whole on the loan bill.

Mr. Morrill advocated and explained the bill and amendments.

Mr. Lawrence opposed the bill on the ground of giving too much power to the Secretary.

A long debate ensued, and several amendments and provisions were offered and rejected.

The Naval Engagement off Chili.

NEW YORK, March 23.—The *Tribune's* Central America dispatches give the following additional Chilian news concerning the naval engagement off Chili:

The following was written to the Minister of War, by the commandant of Lautoro: By communications received from Valchvia, transmitted by telegraph from Chiloi on the 8th inst., we are informed that at 4 P. M., the frigate Blanca approached Aneeed, and the Covodenga immediately went to meet her, and that after exchanging several shots without damage, the Blanca returned for her consort, the Villa de Madrid, and they entered into the action together. After two hours fighting, the Spaniards were forced to retire.

The Stewart Amnesty and Suffrage Resolution—The Whisky Frauds.

NEW YORK, March 23.—Henry S. Foote denies that he is the author of the Stewart resolution, offering amnesty and suffrage, but has commenced a series of papers giving reasons why the proposition should be acceptable to the South.

Before Commissioner Betts to-day, Edward Platt, inspector, testified that he had been paid large sums of money by Simon Dovan, for permitting the use of a Government brand upon five hundred barrels of whisky, upon which duties had not been paid.

Congress Endorsed by California—Mining Stocks.

Mining stocks are firmer; Ophir, 5,40; Yellow Jacket, 7,00; Belcher, 3,00; Savage, 10,00; Imperial, 1,30; Crown Point, 83,00; Legal Tenders, 75.

Sudden Death.

PHILADELPHIA, March 23.—H. N. Thompson, a coal dealer of Providence, Rhode Island, died very suddenly, to-day, of apoplexy, at the Continental Hotel.

CITY AND SUBURBAN.

The Widows Home—An Appeal and a Plan.

The ladies of the Allegheny City society for the relief of the poor, during a period of nineteen years personal experience in visiting among the class of unfortunate poor who need and deserve the aid which by the generosity of the citizens, it has been their duty and privilege to give—have year after year been impressed with the necessity of providing a mode of relief for widows with children, and aged persons, more effective and permanent, and which is less obtrusive and objectionable than the direct way of giving alms.

The most deserving cases of suffering which we constantly meet with, are those of widows—aged persons—and families by chronic disease of the father, made dependent upon the daily labor of a woman for support.

In such cases the monthly claim of the landlord is the hardest burthen they have to bear, and if this could be avoided, they would struggle on with comparative cheerfulness and comfort, maintaining themselves on the scanty rewards of their hard toil.

Many of them are unwilling to ask for, or to receive alms, and patiently endure their wretched lot of poverty and destitution, until some fresh affliction of disease or death, resulting from the miserable cellars or crowded hovels in which they live, compels them to absolute dependence upon the public charity which they have long and bravely struggled to avoid.

It is impossible to convey to any one who has not been engaged in the work of visiting the poor, a just appreciation of the importance and the goodness of the charity which we have so long desired to inaugurate. The fear that it might fail from this cause, together with the knowledge of the many and pressing demands upon the purses of the liberal, during four years of war, have for a time deterred us from the attempt.

Now that our country is blessed with peace, and that peace comes with a saddened smile, reminding us of additional necessity for action, for the sake of the widows, who have been made widows by the sacrifices of war—we have determined to accomplish the long[illegible] for end.

We propose to erect a block or blocks of buildings capable of furnishing comfortable homes for fifty widows or aged people, with their families. The occupants to be such persons as we have described, and to be charged a nominal rent, sufficient only to pay necessary taxes, repairs and management, and to be under such proper rules and regulations as shall be deemed advisable.

The design is, to furnish to the needy and worthy just such help as will encourage and stimulate them to exertions, and leave to them the duty of winning by their own labor the necessary subsistence for themselves and their families. It is not a support but a kindly aid to self-support, which may be achieved without sacrifice of the self-dependant spirit which is found among the most deserving poor, and is so honorable to them.

We declare our intention to engage in this work—*without having any money as yet pledged for the purpose*—confident that God, who "tempers the wind to the shorn lamb," will provide the means by putting it into the hearts of those whom He has favored with plenty, to offer some portion of their money and lands to accomplish it.

A charter is being prepared which will give to the ALLEGHENY WIDOWS HOME a corporate existence. We place the subject in the hands of those who are willing to give now, so that their own eyes may witness the results of their benevolence, and those who have hearts to devise liberal things by bequest to an institution so commendable in itself and permanent in its benefits it will confer upon a most worthy class of suffering poor.

Ammusements.

THEATRE.—To-night is positively the last opportunity of witnessing the performances of Mrs. Emma Waller. She appears in the sterling play of the Duchess of Malfi, and Guy Mannering. This afternoon there will be a matinee for ladies and children, the play for the occasion being the Streets of New York.

OPERA HOUSE.—Miss Helen Western will appear twice to-day—at the matinee and in the evening. The pieces selected are the "French Spy," and the "Octoroon." This evening ends her engagement.

THE SPHYNX.—This evening the Sphynx makes its last appearance at Masonic Hall, and, in addition to the usual attraction, the finest chamber set that has yet been drawn, will be given away. The fortunate drawer of the furniture last night was Mr. John Force, of South Pittsburgh.

LAFAYETTE HALL.—This evening the pupils of the Eighth ward School will give their second entertainment at Lafayette Hall. The performances will consist of select readings, songs, dialogues and tableaux. We hope the Hall may be crowded.

MR. COGGSWELL'S BENEFIT.—On Monday night our friend W. J. Coggswell, the leading man at the Pittsburgh Theatre, will take a benefit, and as he is eminently deserving of a full house, we hope that every seat may be taken, and the lobby crowded. An excellent bill has been selected, and his friends will have an opportunity of showing their appreciation of him as a gentleman and a clever actor.

District Court.

FRIDAY, March 23.—Before Judge Hampton.

In the case of the School Directors of Jefferson Township vs. Henry Large—action to recover a balance of the county fund alleged to be retained by him—the jury found a verdict for the plaintiffs for $978.50. Defendant's counsel moved for a new trial. It is not believed that the defendant wrongfully appropriated any part of the moneys entrusted to him, but he had a very loose way of doing business—left blank checks lying around, with his signature attached to them, and one of these checks was found to have been filled in with pencil marks, but there was no proof that it was not genuine. There is a deficiency somewhere, and whether it has been caused by carelessness or not, the School Directors feel bound to make it good to the people.

Court adjourned until Saturday morning.

Court of Common Pleas.

FRIDAY, March 23.—Before Judge Sterrett.

In the case of Mazurie vs. Kirk, the jury found a verdict for the plaintiff in the sum of $78.

Joseph Haigh vs. Owners of the Steam Tug Gipsey. This was an action brought to recover $900, the value of a flat load of coal sunk in the Ohio river, at Manchester. The boat was employed to tow the flat from the Monongahela bridge to the Point. On reaching the Point, owing to the state of the river, the landing could not be made there, as is alleged, and the flat was safely landed at Manchester, where it was sunk during the night following. The jury found a verdict for the plaintiff for $1,021 01. The owners of the Gipsey are Messrs. Wm. Barnhill, A. Hartupee, Levi Brenneman, and others.

Illness of Capt. Pratt.—We regret to learn that our old and highly esteemed friend Capt. Pratt, for many years messenger to the Councils of this city, is ill beyond all hopes of recovery, and that at dark last night he was sinking rapidly. The Captain is sinking under a complication of diseases, which together with his old age—he being about eighty years old, render his recovery impossible. His familiar face will be missed from our Council Hall, and there will be many to drop a tear to his memory.

Meeting of Allegheny Councils.

A special meeting of Allegheny Councils was held on Friday evening, March 23d, for the purpose of taking action in regard to the proposed repeal of the ordinance prohibiting the erection of wooden buildings.

In *Select*, present, Messrs. Drum, Hall, Heckenstein, Irwin, Myler, Patterson, A. D. Smith, J. B. Smith, Thomas, and President McBrier.

The President laid before Councils the returns of the election on the subject of a repeal of the wooden building law. The result was:

For repeal	1,044
Against repeal	485
Majority for repeal	559

On motion of Mr. Myler, the result of the election was ordered to be placed on the minutes.

Mr. Irwin presented a remonstrance from citizens of Ridge street, against the leasing of lots in the Seminary tract, for the manufacturing of brick. The petitioners object, for the reason that the leases, under which they hold possession of their lots, expressly stipulate that the city shall protect them against all nuisances whatever—and they hold that brick kilns in that locality would create a nuisance.

Mr. Myler was opposed to leasing the lots for the purpose intended.

Mr. Hall did not think that a brick kiln was a nuisance by any means. If the smoke would seriously annoy the citizens remonstrating—if, in other words, a nuisance should be created, it would be abated. He was in favor of making the lease.

Mr. Thomas was opposed to leasing the lots for the purpose proposed.

Mr. Irwin stated that he had carefully examined the matter, and while he would be quite unwilling to do anything which might injure his neighbors and constituents, as most of the petitioners were, yet he could not see how the proposed lease was to injure them in any sense, while it would give advantages to the city. He was therefore in favor of making the lease.

Mr. Myler moved that the Committee be instructed not to make the lease. Lost.

Mr. Drum presented an ordinance repealing that portion of the City Code which prohibited the erection of frame "mansion houses" in the city. The ordinance does not repeal that portion of the original law prohibiting the erection of frame stables, workshops, factories, etc.

An animated discussion followed upon the question as to whether the vote of the people did not contemplate a repeal of the ordinance. The debate was conducted by Messrs. Drum, Hall, Thomas, J. B. Smith and Myler.

Mr. A. D. Smith moved to amend the ordinance, so as to repeal the entire law for a period of one year.

Mr. Myler asked whether the Councils could fix a limit to the ordinance, and say when it shall expire? This would be a mere suspension, and not a repeal.

Mr. Hall thought that the better plan would be to repeal the ordinance indefinitely, leaving the future to take care of itself.

The question was taken on Mr. A. D. Smith's amendment, which was lost.

Mr. J. B. Smith moved to amend that the entire ordinance be repealed.

The yeas and nays were called and resulted: Yeas—Messrs. Drum, Heckenstein, Myler, Patterson, A. D. Smith, and J. B. Smith—6.

Nays—Messrs. Hall, Irwin, Thomas and President McBrier—4.

The ordinance, as amended, was then finally passed, under a suspension of the rules—Messrs. Hall, Irwin and Thomas voting in the negative.

Mr. McBrier (Mr. Drum in the Chair) then submitted the following:

Resolved, That it is the sense of these Councils that the ordinance prohibiting the erection of frame dwellings should be re-enacted by the present Councils at the close of the year, and that by the adoption of this resolution we give formal notice to the citizens of our intention to do so.

The resolution was adopted, and C. C. concurred.

A resolution was adopted to pay the election officers for holding the late special election, after which Council adjourned.

In *Common Council*, present, Messrs. Brown, Cunningham, Hanna, Hecadorn, Megraw, Meyer, Miller, McNeil, McDonald, Reed, Walter, and President Benney.

The election of Mr. C. F. Ingham, as member from the First ward, to fill a vacancy, was reported.

Mr. Ingham tendered his resignation as Board Measurer, which was accepted, after which he was sworn in as a member of Council by Mayor Morrison, and he took his seat.

Mr. Hanna presented an ordinance fixing the compensation of the city Weigh Master at $[illegible] per annum, which was adopted.

Mr. Hanna offered a resolution requesting our representatives to oppose the bill now before the Legislature, for the reduction of the price of weighing hay in the city.

Mr. Walter presented a petition praying Councils to have a water-pipe placed on South Canal street from Chestnut to Sycamore street. Read and referred.

Mr. Hanna offered a resolution for the removal of the fireplug on the corner of Craig and Rebecca streets. Read, and Superintendent of Water instructed to remove the plug.

The President presented the report of the Committee on Gas, recommending the erection of three additional gas lamps in each ward, to be placed where the members from the respective wards may designate.

The report was amended by making the number of lamps "four" to each ward, which was agreed to.

The President submitted a communication from Mr. Woodward, Solicitor, relative to the encroachments on the Pittsburgh side of the Allegheny river, by filling up from rolling mills, etc. Referred to Committee on Wharves, in conjunction with the City Regulator.

Mr. Reed read a resolution for the immediate repair of Chartiers street, in the First ward. Referred to Street Committee.

Mr. Hanna offered a resolution providing that the regular meetings of Councils be held on the first and third Thursdays of each month.

Mr. Hecadorn moved to amend by substituting the second and fourth Thursdays, which was agreed to, and the resolution adopted as amended. In Select Council the resolution was non-concurred in.

Mr. Ingham moved that a fireplug be placed in Ann street, between Isabella and Corry streets. Referred to Water Committee.

Mr. Reed moved that the Street Commissioners be instructed to repair the sidewalk on Rebecca street, as required by law. Referred to Street Committee.

Mr. Hecadorn moved that Council adjourn. Carried by a vote of seven to five.

Mr. Hanna characterized the adjournment as an insult to the citizens. Councils had met for a special purpose (the repeal of the frame law,) and if members could not wait until that matter was settled, they should resign.

Mr. Megraw agreed with Mr. Hanna, and thought that some of the members felt disposed to shirk their duties. If they were afraid to meet the question, they had no business in Council.

Mr. McNeil replied, that so far as he was concerned, he was opposed to the repeal, and would vote against it.

On motion of Mr. McDonald, the motion to adjourn was reconsidered.

The ordinance repealing the frame law, as passed by Select, was then read, and also the resolution foreshadowing its repeal at the close of the year.

On motion of Mr. Walter, the action of the Select Council was non-concurred in.

Mr. Hanna moved for the appointment of a Committee of Conference, which was agreed to, and Messrs. Hanna, Megraw and McNeil were appointed. Select Council concurred, and appointed Messrs. Drum and Patterson. The Committee, after consultation, reported in favor of the action of Select Council. The report of the Committee was received, and on a motion to adopt it, Mr. Brown called for the yeas and nays, which were as follows:

Yeas—Messrs. Brown, Hanna, Hecadorn, Megraw, Myers, Ingham, Miller, Reed and President Benney—9.

Nays—Messrs. Cunningham, McNeil, McDonald and Walter—4.

So the ordinance was finally adopted, and Councils adjourned.

Court of Quarter Sessions.

FRIDAY, March 23.—Before Judges Mellon and Brown.

Oliver Graham plead guilty to a charge of assault and battery, and was sentenced to pay a fine of five dollars and costs. The same defendant was tried for the larceny of a watch and acquitted.

Mark Deery was convicted on a charge of receiving stolen goods. The defendant had in his possession a portion of the goods stolen from Mr. Douglass' hat store, on Wood street. He was recommended to the mercy of the court, and remanded for sentence.

John Crebble, colored, was arraigned for the larceny of some clothing, the property of a colored friend named John Fox. A laughable scene occurred during the trial of this case. The prosecutor, observing that the prisoner was required to take a seat in the "dock," imagined that that was a place set apart for colored people, and without waiting for an invitation he stepped in and took a seat beside the defendant. Discovering his mistake, he undertook to leave, but one of the officers, supposing him to be a prisoner also, refused to allow him to depart until the matter was explained, when Fox was furnished with a seat beside the counsel for the prosecution. The jury convicted Cribble, and he was sentenced to two months in the county jail.

Michael Kapp plead guilty to selling liquor without license, and was sentenced to pay a fine of $25 and costs.

Eli Casey plead guilty to a charge of assault and battery, and was sentenced to one month in the county jail.

Morris Freel "confessed" that he had sold liquor without license, and was mulct in $25 and costs.

Henry White and Joseph McLaughlin were arraigned on a charge of misdemeanor, under a section of the act incorporating the Pennsylvania Railroad Company. The defendants took passage on the Wall's Accommodation train, and being under the influence of liquor they undertook to cut some didos in the car. The conductor, Mr. Routh, is a gentleman who will "stand no nonsense," and he put the "larks" out at Shady Side station. In revenge for being ejected they threw stones at the car, one of the stones passing through a window and endangering the safety of the passengers inside. The jury found a verdict of guilty, and the defendants were remanded for sentence.

John McCall plead guilty to stealing an overcoat from S. Tyler, and was sentenced to two months in jail.

Henry and Sylvester Mayhew and Mary Ann Pelling preferred cross suits for assault and battery. The jury found a verdict of not guilty in each case, and ordered the defendants to pay the costs.

John McBrattney and Robert McKarahay were arraigned on a charge of aggravated assault and battery, on oath of Frederick Kennedy. The assault, which was wanton and unprovoked, has already been fully noticed in our columns. The defendants put in a plea of guilty of simple assault and battery, and were sentenced to pay a fine of $50 each, and to six months' imprisonment in the county jail. Mr. R. T. Kennedy, father of the above named plaintiff, has a similar charge against these defendants.

Destructive Fire—Great Western Planing Mill Burned—Loss Estimated at $50,000.

About eleven o'clock last night, a fire was discovered in the shaving room connected with the Great Western Planing Mill, corner of Marbury street and Duquesne way, and before the fire department could be made efficient the entire building, owing to the combustible nature of its contents, was wrapped in flames. The building was a large three story brick, fronting on Duquesne way, and running back on Marbury, and in the rear was a room where the shavings were deposited, and from whence they were taken to be used as fuel. The fire was undoubtedly the work of an incendiary, who, obtaining access to this room, applied the match and succeeded in effecting his nefarious purpose. The building was occupied by John Heath & Co., as a planing mill, and by Isaac Gulliet, steamboat builder. The destruction of the mill and its contents was complete, notwithstanding the vigorous exertions of the firemen. The loss is estimated at about $50,000. We were unable, in consequence of the lateness of the hour, to ascertain whether there was any insurance on the building and stock or not.

Three dwelling houses on Marbury street, were considerably damaged by water, and the furniture was more or less damaged by its hasty removal. At one o'clock the fire was completely subdued.

John B. Gough's Lecture.

The lecture of Mr. Gough, last night, was without exception the best we have ever heard him deliver. He had before him an audience who could appreciate his remarks, and we are much mistaken if, in his random shots, he did not hit—not one, but many who were within the sound of his voice. The Hall—capable of holding seventeen hundred people—was densely packed, and he was listened to with the most profound attention, broken only by occasional bursts of applause, or explosions of laughter. His subject was "Habit," and it was treated in a most masterly manner. His mood was generally serious, indulging, at times, in the most sublime language in giving expression to his thoughts, but occasionally varying the entertainment with dashes of genuine humor and drollery that were irresistible. He proved not only that we were creatures of habit, but that to a greater or less extent, we, ourselves, were responsible for the habits we formed. In regard to some of the habits of the present day he was very bitter, and spoke in terms of withering scorn and contempt; for some he had pity, and for a few, charity. His description of what composed a modern lady was irresistably comic. One would imagine that he had been taking an inventory of stock in a fashionable trimming store. He was no less severe on the habits of young men than of ladies, and if those who heard him would only profit by his advice, we are sure they never would regret it. The Young Men's Mercantile Library Association have been remarkably fortunate in their selections of lecturers this season, but in none more so than Mr. Gough. We hope to have the pleasure of hearing him again.

Riot at a Coal Pit.

Mr. James Reno appeared before Alderman Strain, on Friday, and preferred a charge of riot against James Logue, Michael Dougherty, George Dougherty, Patrick McGrogan, and others. Mr. Reno represents the Pittsburgh Union Coal Company, whose works are located in North Fayette township. It appears that a day or two since, the men in the pit quit work, for some reason or other, and the Company hired other men, as they had a perfect right to do. In these days, however, the diggers insist on having things pretty much their own way, and if they cannot accomplish their end peaceably, they sometimes resort to violence. It is alleged that in this case they assaulted the men who went in, undertook to damage the property of the Company, and acted in a very riotous manner. Warrants have been issued for their arrest.

Disturbance at a School House.

On Tuesday last a party of young men assembled at the School House at Wilkinsburg, and created a serious disturbance there. Their conduct was of such a character that they have all been prosecuted for riot, before Alderman Strain, by Mr. John Robinson. The names of the offending parties are James Elder, Robert Elder, Frank Elder, John Brown, Wm. Horner, Wm. Snyder, Wm. Reese, James Ayers, James Hunter, John Buzzard, Wm. Lacock, and others. Some of the defendants have been arrested and held to bail, and warrants have been issued for the arrest of the others. They will find that what was perhaps intended for "fun," will prove both serious and expensive.

A frightful tragedy occurred last night at Lake Station, on the Michigan Central Railroad, thirty-six miles from Chicago. A man named Molloy, lately divorced from his wife in St. Louis, followed her to Lake Station, where she was living with her brother, and cut her throat, killing her almost instantly, after which he fled to the woods. He was found this morning by a scouting party, with his throat cut and quite dead, though he was yet warm.

Religious Services.—The newly-appointed pastor of the Liberty street M. E. Church, Rev. S. F. Jones, will enter upon his duties to-morrow—preaching at half past ten o'clock in the morning and at seven in the evening. This young minister enjoys quite a reputation for pulpit ability, and doubtless, large expectations are felt by this congregation.

MARRIED.

NOTICES.

WE, THE UNDERSIGNED, Merchant Tailors, of the cities of Pittsburgh and Allegheny, desire to inform our customers and the public in general, that owing to the disadvantages which we labor under in regard to giving six months credit, as our goods cannot be purchased upon the same rates as heretofore, and having to pay our workmen weekly in cash for their labor, besides paying out monthly a heavy Revenue Tax upon the amount of our gross sales, we are compelled thus by force of circumstances, to limit our credit system to THREE MONTHS, all accounts being due and payable QUARTERLY, that is, upon the FIRST DAYS OF JANUARY, APRIL, JULY AND OCTOBER.

And we would here take occasion to say to those long credit and non-paying gentlemen, that they will hereafter be known and need not expect any further favors from us.

FOR GOVERNOR:

MAJ. GEN. JOHN W. GEARY,

OF CUMBERLAND COUNTY.

NOTICE TO ADVERTISERS.

Notice is hereby given that hereafter all TRANSIENT advertisements received at this office must be paid for when handed in, except in the case of yearly advertisers, whose bills will be rendered quarterly, as usual. Advertisers will please make a note of this, as the rule of cash payments for advertisements of the character stated, will be inflexibly enforced.

The price of our paper is THREE CENTS at the counter or from newsboys. Served by carriers at FIFTEEN CENTS per week.

THE REASON WHY.

A leading manufacturing firm of this city call our attention to the following paragraph contained in a recent copy of the London *Times*, sent them by their British correspondent:

WOLVERHAMPTON, *Saturday*.—"The demand for iron keeps very steady, orders coming in day by day, and they are pressed for completion. The improvement in the trade with the United States is more decided, and ironmasters having agencies there are sanguine of a heavy spring trade with that country. Stocks are low at New York, and requirements for the restoration of railways and all commercial plant very large. The only drawback is that the American ironworks are far from being well employed, and they are striving earnestly to get the heavy import duties further raised, *but it is hoped that Southern votes will on that question counteract New England in Congress*. Railway orders are large, and the Lancashire and Yorkshire are in the market for 5000 tons. The demand for hardwares is improving steadily."

This explains fully why British journals, and journals and individuals on this side of the Atlantic, in the British interest, are smitten with admiration for the President's Policy. In addition to the [illegible] desire they have felt to break up this government, and so far demonstrate their favorite hypothesis that republican institutions are a failure, and which still leads them to wish the humiliation of the Union, and the embarrassment of its loyal population, they are actuated by a special selfishness, under the inspiration of which they are covetous of our rising manufacturing power, and are seeking by all possible means to hamper and cripple it. This is presisely what we expected. Hence we are not surprised at the unmeasured laudation the organs of British opinion are now pouring upon the President, and his plan of Reconstruction; though we are somewhat taken back by this frank disclosure of their motives.

What bothers us is that there are ironmasters in this counrry who take the British view of the subject, and ceremoniously invite a competition which must be fatal to themselves and the workmen they employ. When an enlightened self-interest coincides with a wise and beneficent public policy it is ordinarily fair to presume upon unity of action. The contrariety now disclosed baffles our faculties of exegesis.

A BILL PASSED THE LEGISLATURE a few days ago to incorporate a company to construct a railroad from Schuylkill county to the Delaware river near Philadelphia. The impression upon the public mind is that it was a blow aimed at the Reading Railroad Company for daring to enter into engagements with the Atlantic and Great Western Company. Influential parties from Philadelphia are at Harrisburg endeavoring to prevail on the Governor to veto the bill.

Now, we are decidedly in favor of Free Trade in Railroad building. If any persons want to invest $4,000,000 in a new railroad from the Schuylkill coal regions to Philadelphia, by all means let them do so. Prudent business men, having that sum to place, will be apt to consider fully the facts bearing on the prospect before putting in the money.

We approved the Governor's late veto of the Philadelphia and Erie Railroad bill because that was a measure of obstruction. Its design was not to facilitate the building of railroads, but to prevent men who were ready to build roads from having that privilege.

STATEMENTS are made to the effect that "all the Southern leaders in Washington" are favorable to the principle of Mr. Stewart's resolutions, giving universal amnesty for universal suffrage. These statements must be taken, if at all, with many grains of allowance. Some Southern leaders are doubtless willing to compromise in this way. Messrs. Foote, of Tennessee, Sharkey, of Mississippi, and Hamilton, of Texas, may be of this number. But, on the other hand, Messrs. Sharkey, of Missouri, Call, of Florida, Hunt and Parsons, of Alabama—all Senators elect—protest against the proposition and say it will not be accepted by any Southern State. We think what they assert in this regard is fact. There was a time, shortly after the fall of Richmond, when the Southern people would have accepted this offer gladly. Now, their mind is altered. They believe they can get universal amnesty without any concessions whatever. This change has been wrought in them by what they know of the feelings and purposes of the President towards them.

IF LOUISIANA is in the Union in the same sense as Pennsylvania, upon what principle can President Johnson be justified, in preventing the installation of Mr. MONROE as Mayor, or in allowing General CANBY to prevent it? There is no pretense that he was not fairly chosen by a majority of the qualified electors. All that is alleged is that he *was* disloyal. If the President should interfere to prevent, by military force, the inauguration of a Mayor of Philadelphia or New York, the whole country would flame with indignation. The intervention in New Orleans is a demonstration that the President holds Louisiana still subject to the war power as a conquered province.

THE *Commercial* has not got out of the fog on the Suffrage Question. Yesterday it rode two horses. In one article it stoutly espoused Mr. Raymond's proposition, for a rule applicable alike to the loyal as well as the disloyal States, making a given degree of intelligence the indispensable condition of voting. It did more. Not having a due fear of radicalism before its eyes, it urged Mr. Raymond to bring forward a constitutional amendment to that end. In another article, it clearly favored the proposition of Mr. STEWART to grant universal amnesty in exchange for universal suffrage; and prompted Congress to act in that direction. Under which king, good neighbor?

PRESIDENT JOHNSON has been elected an honorary member of the Manhattan Club, the leading Democratic society of the city of New York, and has consented in acknowledgment of the compliment to have a full-length portrait of himself taken to ornament its room. This is the Club with which Mr. Secretary SEWARD fraternized after making his Cooper Institute speech on the 22d of February last.

THE RIGHT OF BLACKS to ride in street cars has gone up to the Supreme Court from the Philadelphia Common Pleas, and in such form as to necessitate a final decision of the main question.

ALLEGHENY WIDOWS' HOME.

In our columns to-day will be found an Appeal from several of the most prominent and influential ladies of Allegheny, in behalf of an enterprise inspired by enlarged philanthropy. It is in contemplation to erect one or more blocks of dwelling houses, to be rented at nominal rates, to widows of respectability who are struggling to maintain their children or dependent parents by honorable industry. This is a form of charity, noble in the donors, and not humiliating to the recipients. It is the wisest form charity ever assumes, of enabling the poor to help themselves. While this principle has its manifest advantages as a general rule, it has special advantages in the class of cases for which provision is now contemplated. These advantages are admirably set forth in the Appeal.

We urge a single point. Organized as society is, females are commonly reared in a condition of comparative or absolute dependence on their fathers, brothers or husbands. Instructed in household industries merely, they have small resources to fall back upon when disease or death takes away the props on which they have been accustomed to lean. The loss of a father or husband is always the sundering of tenderest ties. Often it is more. It not unfrequently plunges a daughter or wife from competency and comfort into the depths of poverty and helplessness. Just here such a charity as that now proposed is of incalculable value. It comes through a cloud of misery like the ministery of angels.

THE MOST VIOLENT, extreme and unscrupulous journals in the United States are those which make the loudest professions of moderation and conservatism. If any man doubts the accuracy of this statement, let him step into any public reading room and carefully look over such files as he may chance to find. The review will convince him of the truth of our statement.

Before us is a Philadelphia journal, edited by gentlemen whom we esteem as personal friends. It vaunts its conservatism. All through the war, it was the harshest and sternest in its loyalty, and the most sweeping in its methods, of any newspaper it was our lot regularly to peruse. Now, it has taken up the championship of the President's Policy, as the current manifestation of conservatism. Except, perhaps, the N. Y. *World* and the La Crosse *Democrat*, there is not a newspaper in the country that surpasses it in violence. It constantly degrades the dignity of journalism by unpardonable coarseness. It even descends to the vulgarity of printing Colonel FORNEY's name without using capital letters—a breach of decency in which only conservative journals have ever been known to indulge.

What is true of conservative newspapers is equally true of individual conservatives. Take at random one hundred of these gentlemen, and ninety-nine of the lot will be found, upon experiment, to be bitterer than wormwood, when they come to speak of men who differ with them in opinion. If you want a man cursed soundly you must get a conservative to do the job for you. Hence, it has happened in all the ages that conservatives have lighted the fires of persecution, engineered inquisitions, and exulted in torturing such as refused to comply with the ancient traditions.

MAJ. GEN. JOHN BROWN, a rebel officer, and brother of Gov. NEIL S. BROWN, resides at Pulaski, Giles county, Tennessee. He was not an original secessionist, but he yielded to the madness of the times at any early period, and raised the second company of volunteers in the county. He was twice wounded, reached Nashville after the surrender with just two dollars in his pocket, and a badly damaged wardrobe. He claims now to be thoroughly reconstructed, and says that "*the rebels of the South will unite with the Democrats of the North, and rule the country.*" That is doubtless the programme. But, pray, have not "the rebels of the South," and "the democrats of the North" been united all the while? It seems like a work of supererrogation, at this late day, to get up a marriage between these parties.

SPEAKING of the Rhode Island Union State Convention, and the consequences likely to result therefrom, the Providence *Journal* of the 21st inst. remarks:

"Every town in the State was represented in the Union Convention yesterday, the proceedings were harmonious, and excellent nominations were made. It is doubtful if the Democrats make any opposition at all to the ticket which was nominated, but it is of little consequence whether they do or not. Our candidates will be elected by a most overwhelming majority."

AT THE REGULAR AUCTION SALE of Scranton coal, in New York, on the 22d inst., prices ranged from $5,25 to $6,85, according to sizes. Still lower rates will be accepted next month. One ton of Scranton or anthracite is worth more than two tons of soft or bituminous coal. Consumers who have been victimized by the high rates of the last three seasons, will not cry in view of the compensation they may obtain in the ruling of low rates for awhile.

WORDS are notoriously cheap. The latest illustration of this truism is furnished by the democrats of Pennsylvania. In their late State Convention they made a formal tender of "lasting gratitude" to the soldiers of the Union. What, and how much, they meant thereby can be inferred from the coarse, ribald and indecent manner in which most of their journals are now dealing with Gen. GEARY.

THE telegraph reported the arrest for horse-stealing, at Louisville, Kentucky, of STERLING KING, and his confession that he was one of the party who attempted the assassination of Secretary SEWARD. The Louisville *Courier* thinks the confession a dodge, to get out of the horse-stealing difficulty, by getting before a military commission on a charge which cannot be substantiated.

A CORRESPONDENT of the N. Y. *Tribune* recently stated that the nomination of Mr CLYMER was received with marked disatisfaction by the President. Perhaps the statement was not overdrawn. Be this as it may, we have excellent authority for declaring that Mr. CLYMER has been a frequent and welcome visitor at the White House during the last six months.

THE Cincinnati *Gazette* affirms, on what it declares to be competent authority, that Mr. Secretary SEWARD's recent mysterious voyage, had no other object than to meet exiled rebel leaders in Cuba, and concert with them measures for their restoration to their homes and to political power; and that recent developments are the result of that interview.

OF Mr. SEWARD the Indianapolis *Gazette* says:

"Strange as it may seem to many of our readers, we have no confidence whatever in Mr. Seward, and have not had from the day he entered Mr. Lincoln's Cabinet. We have indeed—to tell the truth on the subject—regarded him as the Evil Genius and Marplot of the Republic, ever since that moment."

IT IS STATED that the Hudson River Railroad Company have ordered 6,600 tons of steel rails, sufficient to lay 60 miles of road, and as the iron wears out it is to be replaced by steel. They cost twice as much, and will wear ten times as long as iron.

Letter from Anawan—The Quarker City by Gas Light.

Correspondence of the Pittsburgh Gazette.

PHILADELPHIA, March 21st, 1866.

Has it ever occurred to you, reader, how little is known to the honest country people, of the crimes and temptations of city life the goings on in dark alleys and unfrequented streets—in the brilliantly illuminated gambling hells—the public squares—underground saloons—sub rosa retreats—aye and ever in the public thoroughfares before the very eyes of the indifferent city pedestrian? And if so will you not concede the axiom that "Ignorance is bliss?" In such instances indeed I think, "tis folly to be wise."—Let me carry you, in immagination to a few of the most popular resorts of this mediocre city; for recollect though Philadelphia is the second city in the country in population, she is not second in crime.—Many smaller *villages* are ahead of her in this particular.

In the first place I will enumerate the places of amusement in their order, as to respectability. The Walnut, Chesnut and Arch streets Theatres, Carncross and Dixies Minstrels, Signor Blitz necromancer, new American Varieties on Alhambra principle, Dan Rice's Circus, Harry Enoch's Music Hall, Paul's Casino, Long's varieties, and a host of minor, if they can be inferior to the two last mentioned, places of amusements. In those underground concert halls obscene songs, ribald jests, and vulgarly dressed females are the attractions, yet these places are as far above other and more numerous, unmentionable dens, as the moon is above this mundane sphere.

The "pretty waiter girl" system is pretty much done away with, and men and boys are substituted. In the "American" colored waiters are employed, and cigars and other refreshments are immoderately indulged in by both men and women. On Chesnut street a stranger will be besieged at every ten steps by some fair but fallen daughter of Eve and many a "flat" is thus "taken in" with a pocket full of cash and finds himself next morning, minus his cash, watch, &c. Another class of these female pickpockets, frequent the street cars, where unsuspecting parties, particularly ladies, show the location of their portmonies, and are readily relieved of them in the bustle of the crowd, of some one getting in or out.—It is said we have just received a fresh importation of these adepts from New York. The public squares on a fine evening present quite a homily. Women of every shade and complexion congregate there, as a tristing place, when they meet their prey. The dandy swell, the roue, and the flash vested, flush faced spirt, together with that class of hypocritical sneaks, who carry an elongated, paritanical, sanctimonious face before their customers through the day—to their families at night, and to church on Sunday. These are not among the least of this motley crowd, nor yet the least censurable. I might go on to enumerate all classes of men. To therecredit be it said, however, some go to these places for observation or through curiosity. Let us now take a glance at the saloons, in some of which you will still find the bloated and brazen faced waiter girl. Some of these places keep open all night, and are usually frequented in the after part of the night, by cabmen, news boys and boot blacks awaiting the first dawn of day to hail the passers by. These all night resorts usually keep eatables as well as drinkables, and many of these poor half clad and starved boys have no homes, and consequently are glad to find such a place for a few hours relaxation and repose. All these sights tend to excite the sympathy of the philanthropist, while some, and a greater portion of them, elicit disgust. Yet we should be charitable and reflect upon the cause of all this shame and destitution. How often has a step mother or father been the means of driving a poor innocent young girl upon the town, and thus if we believe in accessory sins, damning their own souls. Parents should think of this and not be so lax in their duty to their children, as is generally the case.

Pittsburgh is comparatively free from most of these vices, but youth is not invulnerable, and parents and guardians should endeavor to instill in their children or wards a taste for home amusements, where a watchful eye can be kept over them. Verily if there is not some check to immorality in our large cities, in a few years we will leave Sodom and Gomorrah in the back ground.

RELIGIOUS INTELLIGENCE.

The mode of praising God in public worship has been the cause of much trouble, and frequently arising from the want of harmony between choirs and congregations. Choirs are useful in leading this important part of Divine service, but where they assume to do all the singing, then there is likely to be trouble. No discord is more distressing than that which disturbs the richest harmony, and no quarrels are fiercer than those that have raged in the gallery. The Western *Christian Advocate*, in an editorial on "Sanctuary Praise," gives two reasons for this anomaly, namely, that there is too little prayer in the gallery, and too little music in the pews. If singers were more religious and worshipful, and congregations were more praiseful, all would be well. The article goes on to show that music is often everything with singers, sentiment, worship, appropriateness, everything, are often overwhelmed in the single idea of a fine performance. Such display in the prayer of the pulpit would be regarded as an offense. Strange and difficult tunes, after the imperfect drilling of the week, are crowded upon the congregation, so that none but those who attend the rehersal can share in this part of the worship. Much space is devoted in showing the advantages of congregational singing, and that the grand chorus of the whole assembly is the only fitting way for the public praise of God. The best musicians are the foremost advocates of this measure, and the richest and largest congregations are many of them, vigorously adopting it. Fervently religious minds of every grade of musical attainment are unwilling to lose the rich volume of sound, even for the gain of a more scientific style of music. Even instruments would lose some of their terror as aids to Divine praise in the sanctuary, if the congregation were certainly not to be excluded from this part of the worship. We close with the words of the inspired Psalmist: "Praise God in his sanctuary. Praise Him according to his excellent greatness. Praise Him with the sound of a trumpet. Praise Him with the psaltery and the harp. Praise Him with the stringed instruments and organs. Praise Him upon the high-sounding cymbals. Let everything that hath breath [wind] praise the Lord! Praise ye the Lord!" Coupled with the following words of the same pen the harmony is established: "Let the people praise thee, O God! Let ALL THE PEOPLE praise thee!"

—Rev. A. S. Kiuan writes from Indianapolis in regard to the extraordinary revival in the Roberts M. E. Chapel in that city, that direct answers to prayer in several instances have occurred during the week before last. Every member of one of the best families in the place had been converted, except the oldest son. The whole family resolved to pray for his conversion. During the day he was awakened by the Holy Spirit, went to the altar of prayer at Roberts Chapel, and that night was converted. A lady who had been absent from the city for weeks, on her return, to her great regret, found her associates all converted. She was angered at the very mention of the fact. Two of her associates vowed to pray that day fifty times for her conversion. The next night the lady was at the altar and was converted. A prominent officer was induced to attend, but left the church cursing the meeting, and swearing that he never would enter it again. A friend said to a newly converted friend, "let us try our faith in fifty prayers for him to-morrow." He soon was a seeker at the altar of prayer, was converted and united with the church. These instances show the power of believing prayer.

—Calvary Baptist church, Savannah, has for its pastor a former slave, who bought his freedom. A subscription is now open for a new church. The pastor says, "I paid old massa $12 a month for my freedom, and I will pay Massa Jesus $12 to build him a house." So the house will be built. The three colored churches in Savannah number three thousand members, with fine schools.

—The new Baptist church, just completed and opened for divine service at Chicago, is probably the largest and most elegant edifice west of the mountains. The entire dimensions are as follows: Length, 165 feet; breadth, 112 feet. The interior adornments are of the most appropriate and richest character. The organ will cost $10,000, and is only next in size to the great Boston organ. The total cost of the church is $180,000.

—The Pastoral Association of the Reformed Dutch Church, composed of the ministers of that denomination in New York city and thereabouts, are discussing the question: "How can the influence of woman be properly utilized by the Church." Dr. Porter, the able editor of the *Christian Intelligencer*, read a paper on the subject last Monday morning.

—A Sunday school friend gives the following hints to teachers: 1. Maintain order. 2. Attend teachers' meeting. 3. Study the lesson. 4. Pray over your work. 5. Belief brings salvation. 6. Encourage your scholars to benevolence. 7. Be prompt.

—Rev. James C. Taylor, a member of the Pittsburgh M. E. Conference, who took sick during the recent session of that body at Washington, Pa., died there two days after its adjournment. He was an old and highly respected minister.

—It is stated by the *Congregationalist* that many ministers in New England are resigning their pastorates, and going into secular pursuits, because of an inability to live on the sums paid them.

—The *Banner* says on last Thanksgiving Day at Wellsville, Ohio, five clergymen, it is said, all that preached in the place, without preconcert, preached on the same text, viz: Ps. cxxvi, 3. "The Lord hath done great things for us; whereof we are glad."

—The receipts of the American Baptist Home Missionary Society on the 20th of February were $87,117.62. At the last anniversary the Society resolved to raise $250,000. The fiscal year closes March 31st.

—The *National Baptist*, in an article entitled "Baptists in Pennsylvania," while it speaks of the success of the Church in the past, refers to the humiliating fact that in eleven counties in this State, with an aggregate population of $237,000, there is not one Baptist church.

—Recent intelligence from Scotland states the United Presbyterian Church is carrying forward very promising missionary operations in some of the principal towns. The results are quite encouraging.

—Among the recent converts at Pastor Hedstrom's (Methodist) Bethel Ship at New York, is the Norwegian giant. He is represented as being ardent, useful and exemplary.

—At Pekin, China, a heathen temple has been emptied of its idols, and turned into a missionary hospital.

—A Catholic Seminary is about to be erected in Philadelphia, for the education of Catholic priests.

—The Baptist Home Mission Society, it is stated, has organized a thousand churches in the West since it began its labors.

—The *Central Presbyterian*, of Richmond, advocates the formation of a church of the Southern type in New York city.

—The best and truest Sunday school teacher is "one who loves the Lord and the scholar."

SPECIAL NOTICES.

☞ AYER'S PILLS—Are you Sick, feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangement of the natural functions of the body, they are rapidly and many of them surely cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Bilious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heartburn, Rheumatism, Dropsy, Worms and Suppression, when taken in large doses.

They are Sugar Coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

AYER'S AGUE CURE.

For the speedy cure of *Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries.*

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by B. A. FAHNESTOCK'S SON & CO., and by all Druggists. mh16:2m&wF

☞ RETROUVEA'S TURKISH BANDOLENIAN HAIR TONIC. THE DRESSING AND RESTORER OF THE AGE. TURKISH BANDOLENIAN.

Betrouvea's Turkish Bandolenian. What can be more acceptable than anything that will beautify? that will restore nature's decay by stopping the hair from falling out, restoring its natural color, making it to grow in luxuriance and beauty, assist in putting it up according to the present style and fashion, and keep it in place? This Betrouvea's Turkish Bandolenian Hair Tonic will do, and for proof we refer you to any person who has tried it. It is acknowledged to be the beautifier of the age, the only Hair Tonic and Restorer worthy of the name. In Turkey, in France, in England, in America—everywhere, where the "Bandolenian" is known—it is pronounced the ne plus ultra of Hair Preparations. Remember, it is free from all metallic poisons that are contained in most Hair Colors and dressings. It is the extract of many flowers and herbs, beautifully put up, an ornament to the toilet.

FINANCE AND TRADE.

FRIDAY, March 23, 1866.

Gold has remained about stationary during the past two days, fluctuating between 127½ and 128⅛, though some of the "knowing-ones" predict that it will soon go still lower. With the exception of Government bonds and Bank shares, the operations in stocks in this market have been very meagre for some days past. The recent numerous steamboat disasters seem to have affected Insurance stocks rather unfavorably, while oil shares are entirely neglected.

—The action in Congress on the Loan Bill is all things considered, favorable to the policy of the Secretary of the Treasury. The vote on Monday, of 81 to 67, reconsidering that on the rejection of the bill on Friday, was more decided than was expected, as was also the feeling of the House when the bill passed into the hands of the Committee of Ways and Means. When it will come forth, and in what shape, can hardly be conjectured, but there is reason to believe that the Secretary's policy of contraction with a view to an early resumption of specie payments, will receive legislative sanction. Those who advocate his policy believe that it will so appreciate the currency as to make resumption not only practicable, but easy. Mr. Hooper's funding bill, though not what is desired, is regarded as an improvement of the two measures which it is designed to supercede. It provides that the call loans in the Treasury shall not bear more than 5 per cent interest after the 1st of July next, that the aggregate of the public debt shall not be increased, that any new bonds issued shall not bear more than 6 per cent interest in gold or 7-30 in currency, that no such bonds shall be sold for less than par, and that an amount of outstanding obligation shall be withdrawn from the hands of the public, equal to the amount of bonds negotiated. No foreign loan is authorized. The objectionable feature of this bill is, that it prevents the Secretary of the Treasury from funding any legal-tenders except he sells 5-20s at par. It is argued that this will act as a balance to the Secretary; for if he does not keep an easy money market, United States bonds will go down below par, when he cannot retire any more until they come up. It is doubtfully whether the Secretary will accept this bill. If he will, it is believed it can be passed by a large majority.

—A Canadian paper says:

From the last half-yearly trade returns it appears that there were exported from Canada in six months 15,000 horses, 103,810 horned cattle, 168,000 sheep; the total value of this class of exports being $7,923,355. Of wheat, grains, other agricultural produce, the value of the exports was $11,954,878, the most of which went to the United States. The total exports for the half year were $33,655,463, being an increase over the corresponding year of more than $10,000,000.

—A Washington letter says:

The great struggle in the House is over the question of contraction. This is the only point that attracts attention. The Secretary wants power to steadily contract the currency. Congress does not desire to do so. His opponents argue that the volume of currency is not too large, and therefore they are equally opposed to the McCulloch bill and any new measure which shall clearly define the policy of the Government as one of contraction. They are opposed to contraction. The Committee of Ways and Means will endeavor to adopt a measure which will commit Congress to contraction, yet which will openly state the conditions and terms of the policy, so that there can be no secret transactions.

—The Treasurer of the United States, Mr. F. E. Spinner, has published a reply to the several communications of Mr. Comptroller Clarke, in which he states that the recent House Committee, investigating the truth of the different statements that had been made, very properly examined him and his books, and his clerks, before reporting to Congress. He says that if Mr. Freeman Clarke had done likewise he would have arrived at the same conclusion as the committee, that the published statement of the Secretary was mainly correct, based, as it was, upon data furnished from the Treasurer's office, where alone such information can be had. He shows very clearly that "the discrepancy between the bank reports and the Treasury statement arises from the fact that the banks are charged weekly with the amounts deposited with them by revenue officers and others, and are credited daily with whatever checks are drawn on them. Hence, he says, it occurs that the amount due the Government, according to the books of the banks, will differ materially from the balances, according to the books of the department, and adds that in the course of the year there have been many days in which the balance due the Government by the deposit banks, according to their books, have been over twenty million dollars larger than the real balances, according to the books of the Treasury."

—A Washington dispatch says it is estimated by the Internal Revenue Bureau that the proposed change in the income clause of the revenue law, exempting incomes under one thousand dollars from taxation, will affect the revenue to the amount of twenty-seven millions of dollars; the repeal of the tax on crude petroleum, about two millions; and the repeal of the tax on articles in schedule A, such as watches, carriages, &c., one million and a half.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE
FRIDAY, March 23, 1866.

CRUDE.—The Crude market was more active to-day, the transactions being the largest for any one day this season, amounting in the aggregate to *fourteen thousand two hundred and fifty barrels*. While it is evident from the above that the demand was very active, and, as a matter of course, a better feeling manifested, there is no improvement in prices, and we continue to quote at 12 to 13 cents—mostly, however, at 12½. The sales reported were as follows: 1300 bbls, (40 to 44 gravity) to arrive, at 12¾; 500 do do at 12½; 2000 bbls "light" at 12.55, on the spot, (40 to 45 gravity) at 13; 1000, to arrive; at 12½; 1400 for April delivery, at 12½; 1500, in three lots of 500 each, to arrive, at 12½, and 3000 at 23, packages included, delivered free on board vessel, at Philadelphia. Telegrams from Oil City still quote Crude at $4 per barrel at that point. In regard to the fire on Bennehoff Run, the reports to-day are very conflicting. One dispatch reports the loss of oil at 12,000 bbls, while another puts it at 25,000 bbls—a difference of only *thirteen thousand barrels*.

REFINED—The market for Bonded Oil continues quiet and dull, the demand on eastern account being somewhat restricted, and our speculators here, are, as a general thing, still holding off in anticipation of a still further decline. We have sales reported of 800 bbls, light, straw, on the spot in Philadelphia, at 37½; also, 700 bbls prime light straw to white, on the spot, in Philadelphia, at 38; and 550 bbls for immediate delivery there, at 37½. Quotations may be fairly given at 37 to 37½, for immediate delivery in Philadelphia; 38@39 for April; 40 for May; 41@41½ for June; and 42@42½ for July. In Free Oil, the most remarkable feature we have to notice, is a small sale, to go to Montgomery, Alabama—noted once as the capitol of the so-called Southern Confederacy.

NAPTHA AND RESIDUUM—There is no demand whatever for either Naptha or Residuum, and, in the absence of sales, we omit quotations.

ARRIVALS—The arrivals of Crude by the Allegheny river since our last report, were as follows:

Fisher & Bro	4700	W. P. Logan	989
Jas. Wilkins	1300	Dilworth & Bro	808
Hill & Metzgar	1100

Bacon dull; no demand. Groceries dull and prices unchanged. Cloverseed advanced to $5@5,35. Flax seed declined to $2,25. Cotton dull at 25@37½. Gold, 1,27.

New York Seed Market.

NEW YORK, March 21.—The demand for clover is still light, and prices are without improvement; 400 bags have been taken at 8¼@9 cents for Ohio, and 10@11 for State. Timothy is also quiet; 200 bags sold at $3,25@3,50 for Illinois, and $3,75 for Ohio. Flax is dull at $2 50@2,60. In Canary, we notice the sale of a small parcel Sicily, on private terms. Linseed is very dull, our crushers having bought very little for some time past, as English oil is selling at considerable less than it can be made here at the present cost of seed—the sales are 500 bags Calcutta in Boston, at $3,06 currency, and 1500 do, to arrive here, $2,35 gold.

Philadelphia Cattle Market.

PHILADELPHIA, March 22.—The cattle market was very dull to-day and prices rather lower. About 650 head arrived and sold at 14@15 cents for extra, 12@13½ cents for fair to good, and common at 10@11½ cents per lb, as to quality.

RIVER, WEATHER, ETC.

The river fell steadily at this point during Thursday night and yesterday, but last evening it was apparently at a stand with twelve feet in the channel. The weather continues wet and disagreeable, and business at the wharf is as dull as ever.

The Yorktown, from Nashville, is among the arrivals with a moderate trip—Captain Wash Ebbert in command. The Lorena, from St. Louis, has also arrived, and the Revenue, from Portsmouth. The Lorena had a fair trip, and Capt. Sam. Shuman, and clerk Chas. Wilkins look as natural as ever.

The Kate Robinson, from Louisville, and the Robt. Moore, from Cincinnati, are among the next boats due.

The Leni Leoti arrived and departed for Parkersburg, and the Forest City is due here from that point this morning. She returns again to-day, leaving at 11 a. m.

The Edinburg, Capt. Thompson, did not get off for Cincinnati and Louisville as announced last evening, owing the inclemency of the weather, but she will leave to-day without fail.

The Financier, Capt. Darragh, is filling up steadily for New Orleans, as is also, the Camelia, Capt. Lytle for Nashville.

The Silver Lake, Capt. Todd, is announced for St. Louis and all intermediate points, and passengers and shippers should bear this fact in mind.

The Emma No. 3, Capt. James H. Marratta's new steamer left St. Louis on Wednesday for Pittsburgh.

The steamer Phil. Sheridan had her chimneys blown down during the storm on Tuesday night last, and was otherwise damaged to such an extent that she had to put back to Cincinnati for repairs.

The case of the steamer S. P. Hibbard vs. the Chancellor, action for loss of the former by collision and sinking, was called up for trial in the Court of Common Pleas at Louisville, a few days since. This case is one of several years standing, the steamer Hibbard having been sunk in a collision with the steamer Chancellor, below New Albany, in the year 1858. Suit is brought by W. C. Harry, owner of the S. P. Hibbard, against G. W. Stewart, owner of the Chancellor, for recovery of the value of the lost steamboat. It is a case of no little interest, and its decision is looked for with much anxiety among steamboatmen.

DR. KEYSER'S

Pectoral Syrup
CURES CONSUMPTION
Cures Bronchitis
CURES COLDS,
Cures Asthma
CURES
All Diseases of the Lungs

A case of five years standing cured by DR. KEYSER'S PECTORAL SYRUP.

PITTSBURGH, January 11, 1860.

DR. KEYSER—My wife has been afflicted with a bad cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought, the first time, a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.
WM. WILSON,
Alderman, Fifth Ward

PITTSBURGH, April 24, 1857.

READ THE TRUTH.—DR. KEYSER:—I have a daughter who has taken several medicines for a bad cough without benefit, among them Ayer's Cherry Pectoral. I purchased from you a bottle of your Pectoral Syrup, and before she had used half a bottle she was relieved. The second bottle cured her entirely of her cough.
JOHN DARIN,
Robinson street, Allegheny.

PITTSBURGH, December 11, 1858.

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP.—I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 8th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think it should be known this this valuable remedy will do for others what it has done in my case.
JOHN C. LITTLE,
Witness: B. M. KERR. Peebles township.

PATTON TOWNSHIP, April 14, 1858.

A WONDERFUL CURE.—Some time ago an old neighbor of mine was very ill with a bad cough, which every one supposed to be consumption. His relatives told me that he had taken every remedy they heard of, without benefit; his brother came to see him die, and all were confirmed in the belief that he could not live. I had about the third of a bottle of your Pectoral syrup, which I gave him, and it entirely cured him, to the astonishment of all. What makes the case more remarkable, is the extreme age of the man, he being about eighty years old. I have no doubt the Pectoral saved his life.
JOHN McGINNIS.

DR. KEYSER'S PECTORAL SYRUP IN BLAIRSVILLE.—Please send me another supply of your valuable Pectoral Syrup. Almost everybody around us has the cough, and [illegible] Keyser's Pectoral Syrup. We [illegible] and sixteen bottles the last week, and are now entirely out. Mr. A. Alter and Mr. P. Moore, both of Blairsville. [illegible] they would not be without it in their families. In fact, all who use it once want it again.
Yours, respectfully,
J. S. WATTERSON & SONS.
January 30, 1860.

PITTSBURGH, November 11, 1858.

DR. KEYSER—Although not an advocate of Patent Medicines in general, it affords me pleasure indescribable to recommend your PECTORAL SYRUP. As a medicine, it is well worthy the attention of any person who may be troubled with coughs, colds and hoarseness of any kind, and for the peculiar qualifications for relieving all that disagreeable sensation [illegible]. I have been, more or less, in my life, afflicted with the severest of colds and hoarseness. At times my vocal organs [illegible] as to prevent my speaking above a whisper, and by taking a few doses of the above syrup it would relieve me entirely.

In recommending this medicine, I most unhesitatingly say that it is the best I ever found, purporting to cure the above, and should any family be without this remedy for diseases so prevalent.
Yours, most respectfully,
EDWARD J. JONES,
Cashier Citizens' Deposit Bank.

ANOTHER NEW CERTIFICATE.—DR. KEYSER'S PECTORAL SYRUP.—I had been troubled with a cough and cold for several weeks so bad that I could not sleep. I had the advice and prescriptions from three of the best physicians in the city, whom I could name, but do not do so. I finally procured a bottle of your Pectoral Syrup, which cured me entirely.

"STOP THAT COUGHING."—"How can I do it?" Go to Keyser's, on Wood street, and get a bottle of his Cough Pectoral, and if that don't cure you, your case will be desperate indeed." This is a specimen of the colloquy one hears every day in cold-catching periods of the year. And we can, from actual experience, cheerfully concur in the adviser's admonition as above, for we have tried the "Pectoral," in a most stubborn case, with entire success. Near two weeks ago we went to Pittsburgh, with one of the most distressing, contrary, tickling, unendurable coughs we ever experienced since our advent upon this mundane sphere. We coughed steadily and laboriously for some time, trying to wear it out, and hoping it would [illegible], but it was no go! In fact, it seemed rather to have improved by practice, and to have acquired strength, potency and distressibility by the operation. In this stage of the case, we coughed our way to Keyser's, No. 140 Wood street, procured a fifty cent bottle of the "Pectoral Syrup," took it according to directions, and in forty-eight hours we were master of the field, the enemy having unconditionally surrendered, after a brief, but ineffectual fight with so formidable an adversary as Keyser's famous Cough Pectoral.—Brownsville Clipper, Dec. 14, 1858.

Now that the war is over, there will be thousands seeking homes in the South. No person who values his life should go there without having constantly at hand the BITTERS, as a safeguard against epidemic and maladies engendered by miasma and noxious water.

Travelers to and all residents of the rank bottoms of the west and south, and the valleys of the Mississippi and its tributaries, should provide themselves with the
